ACKNOWLEDGMENTS & TERMS

PURCHASER ACKNOWLEDGES AND AGREES THAT:

- **Affiliation.** Cox Solar and Corvus Pro Solar LLP do not state or imply affiliation with any government entity, tax authority, or electrical utility company.
- **Utility costs.** Neither company guarantees future utility rate increases, bill reductions, or specific savings. Production and savings depend on the purchaser's usage, shading, weather, equipment performance, utility tariffs, and net-metering or successor rates.
- **Tax credits.** Any federal or state tax credit (including the federal residential clean energy credit) depends on the purchaser's individual tax situation. Cox Solar does not provide tax advice. Consult a qualified tax professional.
- **Rebates / incentives.** Applying for and receiving utility rebates, SRECs, or other incentives is the purchaser's responsibility unless this Agreement expressly assigns that task in writing.
- **Warranties.** Manufacturer warranties apply as published by the module, inverter, and racking manufacturers. Any workmanship warranty must be in writing. No other warranty is stated or implied except as required by Missouri law.
- **Utility interconnection.** Permission to operate is granted by the serving electric supplier, not by Cox Solar. Buyer authorizes application under the Missouri Net Metering and Easy Connection Act (RSMo 386.890) where applicable. The system may not be energized until the utility issues written permission to operate.
- **HOA / covenants.** Buyer is responsible for any homeowners-association architectural review. Missouri law (RSMo 442.012; RSMo 442.404) treats the use of solar energy as a property right and provides that deed restrictions and similar agreements may not prohibit rooftop solar collectors, though reasonable placement rules that do not impair function, use, or efficiency may apply.

LICENSED ELECTRICAL CONTRACTOR

Cox Solar sells and coordinates this solar energy system. Electrical contracting — including wiring, inverter connection, and interconnection — is performed by **Corvus Pro Solar LLP**, 4665 Pfeiffer Court | Springfield, MO 65803, (417) 988-4300, holding a **Missouri Statewide Electrical Contractor (EC)**, License No. _____. Qualifying electrical work is performed or supervised by a licensed electrician (master electrician of record: Ron Kendall). Buyer may verify the current license status with the Missouri Office of Statewide Electrical Contractors / MOPRO licensee search.

ENERGY DEVICES BASED ON RENEWABLE SOURCES (RSMO 442.012 & 442.404)

The use of solar energy is a property right in Missouri (RSMo 442.012). Deed restrictions, indentures, covenants, or similar binding agreements cannot limit or prohibit, or have the effect of limiting or prohibiting, the installation of solar panels or solar collectors on the rooftop of any property or structure (RSMo 442.404). An association may adopt reasonable rules regarding placement that do not prevent installation or impair the functioning, use, or efficiency of the solar collection device.

TERMS AND CONDITIONS

1. **Work.** Contractor shall furnish the materials and labor described in the specifications, subject to written change orders, required permits, utility approval, and site conditions.
2. **Changes.** Extra work is performed only on a written change order signed by Buyer and Contractor and is an extra charge over the contract sum.
3. **Site access.** Buyer shall provide safe access, working electrical service, and a suitable staging area, and shall disclose known roof, structural, or electrical deficiencies.
4. **Existing conditions.** Concealed or pre-existing defects (including roof decking, trusses, service-panel capacity, or knob-and-tube) are Buyer's responsibility unless included in the specifications. Contractor may suspend work until a change order is signed.
5. **Roof / structure.** Contractor is not the original roofing manufacturer. Roof penetrations are flashed in a workmanlike manner. Remaining roof life and leaks from pre-existing conditions are not warranted unless separately stated in writing.
6. **Hazardous materials.** Buyer assumes responsibility for asbestos, lead, mold, or other hazardous conditions discovered at the property.
7. **Performance.** Start and completion dates are estimates. Delays from weather, utilities, AHJs, labor, or equipment are not a breach.
8. **Payment.** Payments follow the schedule on the face of this Agreement. Final payment is due upon substantial completion and is a condition of any workmanship warranty. Past-due amounts may accrue interest at the lesser of 9% per annum or the maximum allowed by Missouri law, plus reasonable collection costs.
9. **Cancellation.** Buyer's statutory cancellation rights are set out on the face of this Agreement and the attached notices (RSMo 407.700–407.720). If Buyer cancels without a legal right to do so after the cancellation period, Contractor may recover the cost of work performed, non-returnable materials, restocking, permit fees, and a reasonable overhead charge.
10. **Insurance.** Corvus Pro Solar LLP and/or Cox Solar shall maintain commercial general liability and workers' compensation insurance as required for the Work.
11. **Title / risk.** Title to equipment passes as it is installed or as otherwise required by any lender. Buyer shall not remove equipment before final payment.
12. **Production.** Any production estimate is an estimate only, not a guarantee of kWh or dollar savings.
13. **Governing law.** This Agreement is governed by the laws of the State of Missouri. Venue lies in the Missouri county where the Property is located.
14. **Entire agreement.** This document, the specifications, and signed change orders are the entire agreement. Headings are for convenience only. If a provision is unenforceable, the remainder remains in effect.

☐ Buyer confirms receipt of: (1) this Proposal-Contract; (2) two Notices of Cancellation; and (3) the RSMo 429.012 mechanic's lien notice printed in ten-point bold type on the face of this Agreement.
